ENGLISH LANGUAGE TEACHER · YOUNG LEARNERS & PRIMARY

PROFESSIONAL PROFILE

English language teacher with seven years of experience, beginning with private tutoring in Morocco in 2018 and continuing across kindergartens and primary schools in Shenzhen since 2023. I build fully English-immersive classrooms where young learners speak from the first lesson, combining phonics-based literacy work with Total Physical Response, song, storytelling and play — and I manage large groups of children calmly, with real gains in their oral confidence, pronunciation and reading readiness.

WHY I'M A STRONG FIT

- Settled in Shenzhen for the long term** — currently completing a master's degree at Harbin Institute of Technology, Shenzhen (HITSZ), so I can commit to full academic years without turnover risk.
- Works with Chinese colleagues and parents in Mandarin** — no interpreter needed day to day, and I know first-hand what learning a second language actually demands.
- Brings media skills the school can use** — I design my own teaching materials and shoot and edit photography and video for lessons, open days and the school's promotional channels.
- Teaches online as readily as in person** — a computer science background makes online platforms, smartboards and digital materials routine.
